Collection - Faces of the Diaspora

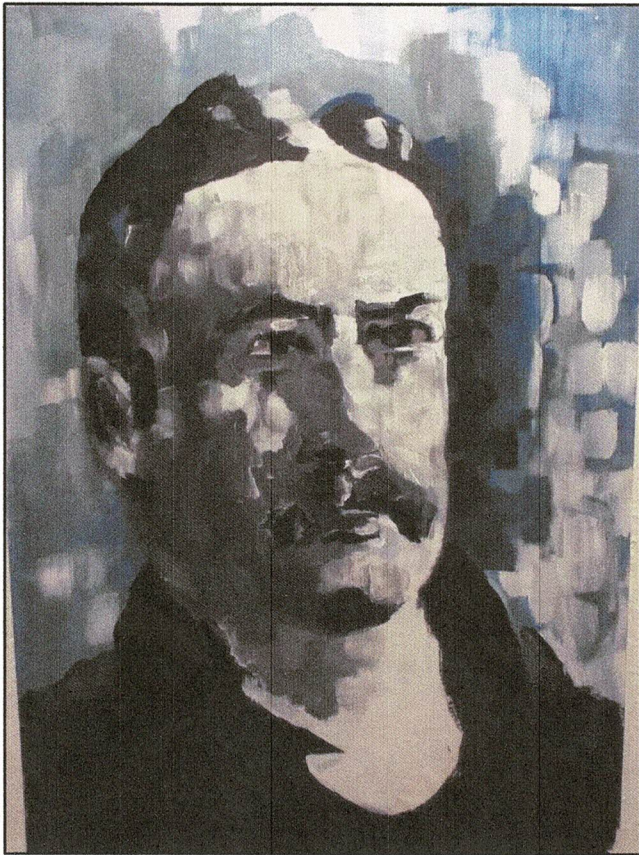

Within our archives there are many digitised photographs (perhaps over 25,000). These are mainly of scenic views, buildings, work places and burial grounds usually associated with the diaspora. There are also family photographs – portraits of our migrant ancestors which are linked to the migrant in our database. We have decided to create a portfolio of these family photographs into a 'collection' we are calling 'Faces of the Diaspora'.

In our definition of who qualifies for entry into our database (for an explanation see our web page called Category – Types of Migrant). You will notice that included are not just born Cornwall but also descendants and, in limited circumstances. Immigrants. In fact, this collection illustrates of all aspects of the migration process.

The initial index (we have many more to add) is set out below. This lists 225 portraits in our portfolio. Some of these pictures (most are photographs) are not of good quality, some are from newspapers and some are paintings or etchings. The earliest birth date is 1694 and the last 1924. Countries of birth include Cornwall, USA, South Africa, Mexico, Ireland, England, India and Australia. The earliest death date is 1763 and the last 2003. Countries of death include Wales, USA, Swaziland, South Africa, Palestine, New Zealand, Mexico, Ireland, France, Germany, England, Cornwall, Canada and Australia.

Before the index, we give some examples.
